Hey!

The START contract was just released from purgatory, and Tetra Tech is the new contractor. Weston's contract will remain open until June 11th, but will be unavailable afterward. I've put together a table of your active work on the Weston contract, and I'd like for you to reply back having filled out the form about whether we can close out that work or if we'll have to transition that to Tetra Tech. If you have a sites that need to be transitioned to Tetra Tech, keep funding in mind. The funding on Weston cannot be transferred to Tetra Tech; therefore, you will most likely need new funding. If I don't hear from you in a couple weeks, I'll assume the sites can be closed out. If you have something super special, give me a call.
